They are done tests and known that (10)..... can grow there. They have not seen any alien life there, but they cannot be sure that it doesn't exist. They have decided to (11)..... a spaceship of people there from Earth, to start a space colony, and a new human society. But there is space for only six people. These people will have to stay there for the rest of their lives. No one else will be able to join the space colony for at least a hundred years. They will take enough food tablets for five years, together with four guns to protect themselves, and blankets, space – tents, etc. The spaceship will be (12)..... from Earth, so there will not be a pilot. The journey will last about ten weeks. The organizers have asked for volunteers, but fortunately only ten people have volunteered. The spaceship must leave in two days' time so there is no time to find new volunteers.

II/ Read the text and answer the questions (1p) :

Telephones help people speak to one another when they are apart. For more than a hundred years, nearly every telephone was a landline. A landline telephone is one that needs to be connected by a wire to a network of other telephones. Because of the wires, people could not take those telephones with them when they left their homes or offices.

What if you had to make a call while you were away from home? You had to find a pay phone. Pay phones are landlines found in public places. Many pay phones are on the street. You can make a call from inside a glass or metal space called a phone booth. Once you are inside the booth, you put coins into a slot in the phone to make a call.

Telephones have seen a lot of progress. Today, many people carry cell phones. Cell phones do not need to be connected with wires. They can be used almost anywhere and can fit in an adult's hand.

Many cell phones sold today are smart phones. A smart phone is a cell phone that has lots of computer-
